

DEPARTMENT: Operations
JOB TITLE: Facility Engineer
REPORTS TO: Engineering Manager
SUPERVISES: N/A
FLSA: Hourly/Non-Exempt

POSITION SUMMARY

ASM Global, the leader in privately managed, public facilities has an excellent and immediate opening for a Facility Engineer at Save Mart Center.

Under general direction, perform a variety of skilled and unskilled activities involved in the operation and maintenance of the facility's mechanical and electrical systems and general operations.

MAJOR RESPONSIBILITIES

Include the following. Other duties may be assigned.

- Operate, monitor, repair and maintain the facility's environmental controls, emergency power, electrical, HVAC and lighting systems as required for the safe and efficient operation of the facility.
- Repair and rebuild various items, such as motors, compressors, pumps and ice machines.
- Follow the preventive maintenance program, energy management program and standard operating procedures for all machinery and equipment.
- Record and log all work performed, complete work order slips and compile all required reports in a timely and complete manner.
- Assist other Operation Department divisions to expedite event conversions, as needed.
- Promote a safe working environment for all employees by following the life safety and emergency program as needed.
- Operate equipment, such as, light trucks, pallet jacks, forklifts, scrubbing machines, or other light power driven equipment.
- May occasionally have to enter areas where fumes, airborne particles and toxic or caustic chemicals are present.
- Respond to routine, precautionary and emergency alarms from building automation and life safety systems.
- Work extended and/or irregular hours including nights, weekends and holidays, as needed.
- All other duties and responsibilities as assigned.

WORKING CONDITIONS

Physical requirements include the ability to communicate verbally, walk, climb, kneel, move around facility, and lift at least 25 lbs.

Subject to adverse weather, and working conditions include fumes, noise and other hazardous situations.

KNOWLEDGE, SKILLS & ABILITIES

- Understand the methods, principles, and practices required for the operation and maintenance of the mechanical and electrical systems. Properly use all equipment needed to perform required duties.
- Be familiar with operational procedures, facility capabilities, industry terminology, event-related services and technical requirements for the types of events anticipated at the facility.
- Know general techniques in plumbing, electrical wiring and ventilating systems.
- Follow and adhere to all safety precautions, building codes, rules, regulations, risk management and emergency procedures.
- Organize and prioritize work to meet deadlines. Work effectively under pressure and/or stringent schedule and produce accurate results.
- Possess any licenses, certificates or training required by local, state or national authorities for the operation of the equipment found in the facility.
- Read and comprehend blueprints, drawings and other related material.
- Follow oral and written instructions and communicate effectively with others in both oral and written form.
- Maintain an effective working relationship with clients, employees, exhibitors, patrons and others encountered in the course of employment.
- Work independently, exercising judgement and initiative.
- Remain flexible and adjust to situations as they occur.

EDUCATION AND/OR EXPERIENCE

High School diploma or G.E.D. and five (5) years full-time experience at a facility in an Engineering related capacity; or the equivalent combination of education and experience. Some technical support school or advanced electrical or refrigeration courses helpful.

TO APPLY: This recruitment will close on April 8, 2022.
